DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 7/23/2008 was filed. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Response to Amendment

Claims 1, 3, 5-7, 9-10, 13, 15-19, 21 and 32-38 are pending in this application. By this Amendment, claims 1, 16, 17, 19 and 21 are amended and claim 29 is cancelled without prejudice.

Allowable Subject Matter

Claims 1, 3, 5-7, 9-10, 13, 15-19, 21 and 32-38 are allowed and renumbered as follows: 1, 2, 3-5, 6, 8-10, 13-16, 18, 19, 7, 11, 17, 20-21, and 12, respectively.

The following is an examiner's statement of reasons for allowance:

The applied references do not teach at least these features of independent claim 1. More specifically, the applied references do not teach or suggest features relating to receiving a first SMS message of a MMS notification message, receiving a second SMS of an MMS notification message as well as the features relating to performing a flag setting, releasing the flag setting and/or performing the RAU processing.

Rukman discloses multiple SMS messages comprising an MMS message to accommodate a length of a message. This does not teach or suggest receiving a first SMS message from a MMS notification message and receiving a second SMS message of the MMS notification message as well as forming one MMS notification message

from the received first SMS message and the received second SMS message. Rukman merely describes that a recipient may receive a first SMS message from a first MMS message by replacing a sender's address in the first MMS message with a unique reply telephone number and by removing overhead information. Rukman does not teach or suggest receiving a first SMS message of an MMS notification message, receiving a second SMS message of the MMS notification message and forming one MMS notification message from the received first SMS message and the received second SMS message. Larikka does not teach or suggest these missing features.

Rukman does not disclose the claimed performing a flag setting, releasing the flag setting and/or performing an RAU processing in response to releasing the flag setting. The Office Action relies on Larikka's paragraphs [0036]- [0041] for the alleged missing features of independent claim 1. However, Larikka's paragraphs [0036]-[0041] do not teach or suggest any type of performing a flag setting, releasing the flag setting and/or performing the RAU processing. Rather, paragraphs [0036]-[0041] merely relate to a SyncML message being inserted into an SMS message and sent to a recipient via an SMS network. Additionally, the SyncML message may split into two or more portions and transmitted using two or more SMS messages. This does not teach performing a flag setting, releasing a flag setting and/or performing the RAU processing.

Further, Larikka and Rukman do not teach or suggest the flag setting to restrain routing area update (RAU) processing and to allow the MS to monitor a paging channel, as recited in independent claim 1. Rather, Larikka provides identifiers at beginning and end of a SyncML message. The SyncML identifiers are provided by a formulating

application 220. See Larikka's paragraphs [0043], [0046] and [0048]. This does not suggest the claimed features relating to performing/releasing a flag setting and/or the RAU processing is prevented from being performed when the flag is set.

Larikka (and Rukman) also does not teach or suggest releasing the flag setting in response to receiving the second SMS message and/or performing the RAU processing in response to releasing the flag setting. Larikka also does not teach or suggest the RAU processing is prevented from being performed when the flag is set.

For at least the reasons set forth above, Rukman and Larikka do not teach or suggest all the features of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
